

WellDrive[®]

NON-OP DATA AT YOUR FINGERTIPS

NON-OP DATA shouldn't be HARD-TO-FIND DATA

WELLDRIIVE NON-OP[™]

PROBLEM: Well partners struggle to get comprehensive, timely, and accurate information about wells in which they hold a non-operated working interest.

SOLUTION: WellDrive NON-OP combines web-based well file technology with 24/7 support from experts to proactively manage the capture, organization, and delivery of well file data.

SUCCESS: One location for non-op well information you can trust – data that's assigned to the right well, matched to the right category, and accessible by the right people, right when you need it.

SAVE TIME, EFFORT, AND HEADACHES

BENEFITS FOR NON-OP PARTNERS

SEE ALL YOUR ACTIVITY AT ONCE

Combine activity from all your wells on one easy-to-read summary delivered daily or weekly.

ELIMINATE THE HUNT

Save countless hours searching for data with automated receipt and storage of all your well files in one place.

IMPROVE DATA QUALITY

Trust that your field data files are categorized correctly and always end up in the right well.

FLEXIBLE SEARCHABILITY

Quickly find the information you need with easy sort and filter options - by company, county, file type, stage of operations, and more.

PROTECT YOUR INVESTMENT

Ensure you get the data you are entitled to on wells in which you hold an interest.

WHAT OUR CLIENTS SAY

"I love how I can see all of my non-op files alongside my operated well files. Having them organized in the same general way makes it easy for my team to compare wells."
